

IN THE SPECIFICATION:

The specification as amended below with replacement paragraphs shows added text with underlining and deleted text with ~~strikethrough~~.

Please INSERT the following new section on page 1 after the title of the invention in lines 1-4 and before the heading "BACKGROUND OF THE INVENTION" in line 6.

CROSS-REFERENCE TO RELATED APPLICATIONS

This application claims the benefit of Korean Patent Application No. 2001- 5374 filed on February 5, 2001, in the Korean Intellectual Property Office.

Please REPLACE the paragraph on page 3, lines 24-26, with the following amended paragraph, in which a period has been added to the end of the paragraph:

In this embodiment, the reproducing method preferably further comprises (e1) outputting the multiplexed main data, sub data, and extra data through a digital interface, or (e2) decoding the multiplexed main data, sub data, and extra-data data.

Please REPLACE the paragraph on page 7, lines 24-28, with the following amended paragraph (this change was also requested on page 2 of the Amendment of April 22, 2008, but the page number 7 was inadvertently omitted from the instructions):

Although sub data and/or extra data are generally reproduced in synchronization with main data, the sub data and/or extra data may be recorded-reproduced separately from corresponding main data. For example, only a sound track recorded as sub data of a movie, or and/or only a movie script recorded as extra data of the movie, may be output.
